Press Release from Collis Engineering Ltd: “ICATS”

Collis Engineering Railway Contracts Ltd is delighted to announce membership of the Industrial Coating Applicators Training Scheme (ICATS).

ICATS is a scheme supported by Network Rail and the Highways Agency and is intended to provide structured training and certification for companies involved in industrial surface coating.

Commenting on the new certification, Director of Railway Contracts Peter Savage explained; “Membership of ICATS demonstrates Collis Engineering Railway Contracts Ltd’s commitment to providing the best product and service for our customers. We can now confidently demonstrate our proficiency in on-site surface coating. Our product range in railway civil and structural engineering has become stronger and will continue to do so in the near future.”

Membership of ICATS has been gained in addition to the further certification held by Collis Engineering Railway Contracts Ltd (via parent company the Signal House Group). These include ISO9001, OHSAS18001, ISO14001 and Link-Up certification including qualification via audit (the old Proof scheme).
